Indian Heart Rhythm Society

IHRSCON2023DELHI

WELCOME TO IHRSCON2023

The 15th Annual Conference of Indian Heart Rhythm Society (IHRSCON 2023) is scheduled from 27th, 28th, 29th October in the sprawling premises of the iconic Hotel- The Umrao, New Delhi.

This two and a half days long academic extravaganza is primarily aimed at encouraging & enabling wide ranging discussions on cutting edge technologies and tools for management of cardiac rhythm disorders. All Efforts will be made to cover every aspect of electrophysiology knowledge and the scientific committee will curate it to their best. India is the land of diversity and the city of Delhi represents it the best. This time, it will be the genuine endeavour of Team-IHRS to envisage a rich & robust scientific program.

The 15th Annual Conference is aimed at encouraging active participation particularly from young & budding Cardiologists especially cardiac electrophysiologists. In addition, this conference will put forth a coordinated, combined and collaborative effort from Cardiologists and cardiac electrophysiologists, spread across the Globe, to disseminate knowledge as well as know-how of new treatments besides leveraging technology for the benefit of the participants. Thus, it will be an effective forum for participants to exchange ideas, inventions, innovations, build efficient & effective networks and initiate new collaborations.

The Organising Committee, on behalf of the IHRS, delightfully invites you to 15th Annual Conference of IHRS at New Delhi from 27th to 29th Oct 2023. We shall spare no effort to ensure that the pleasant weather, warm hospitality, picturesque ambience and vibrant scientific program, blend seamlessly with your gracious presence and make it a memorable experience, which we shall all cherish.

We eagerly & enthusiastically look forward to welcoming you and believe, nay are certain, that this 'meeting of minds' coupled with our combined endeavors will take this event to the Next Level. So let us take another firm step to realise the dream of 'Regular Rhythmic Heart' not only for us but also the society at large.
